

Lynn and Debbie are working on a subcommittee of STAC. They are developing assessment tools for the LEMSA's to assess compliance of their trauma centers. There is a document for each level of trauma center that compares Title 22 requirements for the State and ACS requirements. The committee is also working on tools for the LEMSA's to use for site survey for hospitals not ACS verified. They are finalizing the drafts, they will go to STAC for approval.

C. Rural Trauma Team Development Course Update

No Report

D. Level III Transfer Guidelines Update

Lynn gave an update on the Level III Transfer guidelines. The Level I and Level II hospitals gathered data from last 6 months on transfers from Level III's. Charts were handed out on the data. The coordinators looked at injuries, AIS, ISS, MOI, prehospital BP compared to ISS.

The coordinators are going to look at the data and look at head injuries and the type of head injuries that were transferred, which patients needed neuro and which patient required surgery.

IV. New Business

A. 2014 Data Dictionary Update

The Trauma Coordinators met before the meeting and compared the region's current data dictionary to the new NTDB and updated our data dictionary.

B. Quarterly Data

The Coordinators passed out a copy of quarterly data collected by LA. We currently collect a lot of data for our quarterly report. The coordinators asked the physicians what they would like to see in the report. Would a more concise report be helpful or the current report preferred? The coordinators will put something together to present at the next meeting.

C. General Membership Meeting

There was discussion on having a general membership meeting. It is difficult to plan because there is not funding currently. The committee would like to have a Regional CME meeting. Currently, the work being done for the RTCC is being done by TAC. The subcommittees of the general membership are not meeting.

It was suggested we give a CRTCC report at each annual symposiums given by the hospitals and County's and Local TAC's.

V. Case Presentations

CRMC has one case, will present next meeting when Kaweah is present. Memorial Medical Center presented cases.

VI. Adjournment/ Next meeting date

Meeting was adjourned at 4:35 PM. Next meeting will be April 15, 2014 at 3:00 PM at Community Regional Medical Center in Fresno.
